

Intermedia's SIP Trunking

Give your customers incredible cost savings and reliability by connecting their existing phone system with Intermedia's SIP Trunking!

Save your customers up to 50%

Great up front & monthly recurring revenue

You control the billing and branding, or let us do it for you

Intermedia helps partners every step of the way, from selling to support

Intermedia's SIP Trunking service helps customers reduce their monthly spend on phone service (when compared to expensive phone company lines), increases phone system reliability and offers optional enhanced business features and more.

Intermedia's own VIP Desk supports you throughout the entire sales process from quoting the price of services through installation of the customer's service.

FOR CUSTOMERS

In addition to cost savings, high reliability, and superior voice quality, SIP Trunking:

- **Uses their existing internet connection.** Bypassing the phone company can reduce operational costs.
- **Cuts calling charges.** Saves money with reduced long-distance, toll-free and international calling rates.
- **Make free inter-office calls.** SIP Trunking offers free calling across multiple sites.
- **SIP Trunking can work with your existing phone system!** Or, with the money you save from switching to Intermedia's SIP Trunking, you can purchase a new phone system.
- **Your calls will go through.** Built-in business continuity features allow businesses to continue to make and receive calls even in the event of an unplanned outage.
- **Enterprise-grade datacenters provides high reliability.** With a 99.999% financially backed uptime service level agreement, you won't have to worry about network outages.

FOR PARTNERS

Predictable Monthly Revenue and a Worry-Free Experience™

- **Sell SIP Trunking the way YOU want.** Sell under your brand with full control over billing, pricing and margins. OR let Intermedia handle billing and support while you make sales and earn commissions.
- **Easy to quote and order.** Our Partner Portal makes it easy to quote and order service.
- **We make selling SIP Trunking easy.** Intermedia's VIP desk helps partners across the entire customer lifecycle: from quoting, order process, migration and more.
- **Test your customer's network before they buy it.** With Intermedia's VoIP Scout, you can help ensure high-quality VoIP calling on your customer's network before you install it.

Flexible calling plans and enhanced features make Intermedia's SIP Trunking customizable based on your customers need.

- Unlimited plans offer a predictable flat rate fee for monthly phone service. All Local and long distance minutes are included in a flat monthly rate. Unlimited plans are best for customers who make a lot of long distance calls.
- Bundled plans offer a flat rate for unlimited local calling, a fixed number of long distance minutes, and an overage fee for exceeding the long distance plan. Bundled plans are best for customers who use more local calling and make few long distance calls.

Optional enhanced features

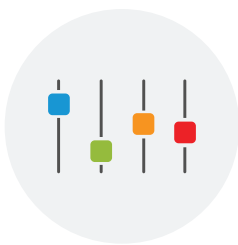

Optional enhanced features add value to your sale. Enhanced features such as Auto Attendant, Voicemail and Remote Market Numbers can increase productivity and business reach while providing additional business continuity support.

Included features:

- Direct Inward Dial numbers (DIDs)
- Local, national (unlimited or bundled) and free inter-office calling
- E911
- CNAM & Inbound Caller Identification
- Directory Listing

Automated Attendant	Answers and routes inbound calls to a person, department or information. Provides a menu with custom greeting and menu options. Most often used for failover/business continuity. Local or toll-free number.
Conferencing	Host reserved or reservationless conference calls. Low cost conferencing service with on-net rates for joining a conference on location. Toll-free number.
Follow Me w/Voicemail	Provides call forwarding, call screening, and sequential and simultaneous ringing. Ideal for mobile sales, support or executives. Local or toll-free number.
Toll-free Number	Dedicated toll-free numbers for inbound calling.
Voicemail	Local or toll-free number with built-in voicemail. Ideal for businesses who do not have voicemail or would like to replace their voicemail with a hosted mailbox. Also used for business continuity to deliver special greetings, take messages and send them as a .wav file to an emergency response email distribution list.
WebFax	Receive and store faxes. Secure, confidential "fax mailbox" for receiving and sending faxes from a PC. Local or toll-free number.
Remote Market Numbers	Establish a local presence in a market that might be across the city, state... or nation without the costs of branch office set up, commuting or staffing.
